#### SCHOOL TRANSFER CASE NOW BEFORE HIGH COURT

DECISION EXPECTED  
SOON

The supreme court will consider the transfer fee case from Cameron within a short time, attorneys for the board are assured.

On motion of the attorneys the case was certified to the supreme court of civil appeals at Austin. The case is described as state wide interest because it involves the rights of independent districts to charge transfer fees in addition to state apportionment of money.

At the hearing at Austin B. P. Atkinson, O. L. Kidd and E. A. Wallace represented the school board. It is said that representatives from Bryan and Waco were present.

E. A. Camp appeared before the court to represent appellants Don Slocomb et al. The school board attorneys asked that the case be sent to higher court in order to get an early decision before the court adjourns.

Deputy game warden Love Moore of Bell County and deputy Chas. Brown of Milam County made the arrest. They say all the game laws will be strictly enforced regardless of who violates them.

Misses Mary Lake Henderson and Sallie Kate McLane spent Saturday in Waco.

T. M. HULL THANKS LOCAL FIRE  
DEPARTMENT AND CHIEF  
THOMAS FOR AID

A letter of thanks and a check for \$100 was enclosed to Chief Monta Thomas of the Fire Department and to Mayor Davis following the fire at the Santa Fe on January 27. The letter signed by Mr. Hull compliments the firemen on their work and is as follows:

"From the reports I have received, I am quite sure that our freight depot and some freight equipment at Cameron would have been destroyed by fire, had it not been for extraordinary efforts made by your Fire Department in extinguishing the fire occurring on our premises at that point morning of the 27th instant.

As appreciation of your valuable service, I am today submitting a voucher to our management in the amount of \$100 in favor of Mr. Thomas, with my recommendation that it be approved and forwarded to him without delay, which I am reasonably sure will be done.

#### BURLESON COUNTY MAN FOR REPRESENTATIVE

J. R. LYON OF LYONS FOR  
FLOATER TO REPRESENT  
THREE COUNTIES

We are authorized to announce for representative for Lee, Milam and Burleson counties J. R. Lyon of Lyons; he is one of the best known cattlemen in Burleson county, having lived at Lyons practically all of his life. His platform follows:

The suspended sentence law was intended to favor only those under twenty-one and it should be so amended as to carry that much protection and no more. In its present use it is being sorely abused.

It should be unlawful for any man or woman to parade around as though they are single. If they want another sweetheart let them get a divorce.

Any man released from the penitentiary, or cleared from the crime for which he was convicted, by the deathbed statement of another, should be paid a reasonable salary by the state for time he has served.

Capital punishment should be abolished. Men should be sent to prison for life but not killed. However, the laws should be so amended that the sentence should be unparadonable.

The house of representatives should be reduced to about one hundred members instead of one hundred and fifty as it now stands. Fair representation could be had at much less expense to the taxpayers.

The law permitting an unlimited amount of subpoenas to be issued should be amended. We have the case of a neighboring county that in a murder case summoned nine hundred witnesses and only used thirty seven of these. The tax payers had to pay for all of those summoned, however, and they all had to lose the time from their business, beside the expense of being away from home. In my humble opinion this is a terrible burden on the state that might as well be remedied.

Last, but not least, the values of our lands has been generally decreasing in value for years while the tax burden has been steadily increasing. The edges should be cut somewhere and if elected it shall be my supreme desire to help cut the expense of the government and thereby help lift the growing tax burden off of all of us. Your support is earnestly solicited and will be highly appreciated.

Mr. Lyon is a well known Burleson county citizen and a stockman. He is widely acquainted in Milam County but will meet the people when the

COUNTRY SCHOOLS HAVE FOR-  
MIDABLE LINE UP FOR  
CONTEST

The Milam County Basket Ball Tournament will be played on the Lawless Green Field Friday and Saturday.

The best teams in the county have entered this tournament and many good games will be played. From the reports from over the county this will be the hardest fought tournament that has ever been held in this county.

Buckholts, Sharpe and Yarrelton have the best teams that they ever had. These three teams will give the two large schools of the county all they can handle to stay in the race. Cameron and Rockdale went to the semi-finals last year and then Cameron and Buckholts fought it out for the county championship, Cameron winning for the first time.

No one seems to have the edge over the other teams this year and the meet will be hard fought from the beginning to the end. Much interest is being shown over the beautiful trophy now on display at the Palace of Sweets.

Mr. Lynton Boggus of Waco will handle the tournament. Mr. Boggus is a Southwestern Conference basket ball official and is rated as one of the best in the state.

An admission fee of 50c and 25c will be charged for each day.

A big crowd from all over the county will be here to root for their team. The games will start at nine o'clock Friday.

#### FARMERS ENTER COTTON CONTEST FOR PRIZES

90 MILAM COUNTY MEN GET IN-  
TO CONTEST BY COMMERCIAL CLUB

Up to Friday morning 90 farmers of Milam County had entered the "more cotton on fewer acres" contest.

Of this number 54 are negroes and 36 are white farmers. This list of entries is beyond all expectations and before the dates for the contest close it is expected that at least 100 white white farmers will be in the contest.

The commercial club has signed up for the biggest job of its life. The details of this contest will require time and labor beyond measure but it will be worth the price.

The club is anxious to have many more enter. The prizes to be given are in addition to the state prize. Each farmer may enter the state through this club and participate in the state prizes.

#### \$25 Cash Prizes Are Offered For Names For New Store Here

The new Cash and Carry Grocery is offering \$25.00 in prizes to get a name suitable for such a business. The selection of the names will be made by three reputable business men of Cameron. The names will be turned in to the Cash and Carry store on its opening day. Each slip will be numbered and in case there should be more than one offering the same name the slip turned in first will be given the prize. The store is not bound to use the name selected by the judges, but may use any name turned in for which name it will pay \$5.00. \$20.00 will be paid for the best name selected by the judges, \$5.00 will be paid for the second best name and in case neither name is used \$5.00 will be paid for the name used. Names of the judges will be published later.

## Baptist Church News

There is a time, I know not when,  
A place, I know not where,  
Which marks the destiny of men,  
To glory or despair.

There is a line by us unseen,  
Which crosses every path,  
The hidden boundary between  
God's patience and God's wrath.

To cross that line it is to die,  
To die as if by stealth,  
It may not pale the beaming eye,  
Nor quench the glowing health.

The conscience may be still at ease,  
The spirits light and gay,  
That which is pleasing still may please,  
And care be thrust away.

But on that forehead God has set  
Indelibly a mark  
By man unseen, for man as yet  
Is blind and in the dark.

And still that doomed man's path below  
May bloom like Eden bloomed.  
He did not, does not, will not, know,  
Nor feel that he is doomed.

He feels, he says, that all is well,  
His every fear is calmed.  
He lives, he dies, he wakes in hell,  
Not only doomed but damned.

Oh, where is that mysterious bourn,  
By which each path is crossed,  
Beyond which God himself hath sworn,  
That he who goes is lost?

How long may men go on in sin?  
How long will God forbear?  
Where does hope end and where begin,  
The confines of despair?

One answer from those skies is sent:  
"Ye who from God depart,  
While it is called, To-day, repent,  
And harden not your heart."

Anon.

### TO CAMERON BAPTISTS

We cannot adequately express our hearts real gratitude to you for the Ford of groceries and variety of good eats, (even a jar of home made fig preserves), sheets, dress goods, towels, a quilt and \$8.50 cash you sent by the hands of Mrs. Miller, Mrs. Henley and Mrs. Hutcherson.

To shower the pastor is a common thing and no surprise. But to shower the Missionary! We had not dreamed of such. And how pleasant the surprise! You are in our hearts. We cannot help but pray God's choicest blessings for Every One of you.

May our lives be so given to genuine Christly service that your confidence in us shall be steadfast and unshaken. We thank you.

Your Missionary and family,  
Signed, C. L. Boone.

### ADDITIONS IN JANUARY

Our church is in a fine spiritual condition. An evangelistic spirit prevails. It looks as if 1926 is to be a great year for us. In the four Sundays in January in which the services were regular there were 14 additions to the church, nine of these for baptism, three by letter and two by statement.

Of these 9 for baptism six of them were grown men, one woman and two boys. How grateful we are for the

blessings of the Lord upon us. Last Sunday night was one of the very best services yet, when the house was reasonably well filled and the spirit of the Lord was there to convict of sin. Two joined the church for baptism: Gus Evans, Jr., and Charles Hardin Pollard.

### INTERMEDIATE CHOIR

Last Sunday night the Intermediate Department of our Sunday School filled the choir, and under the leadership of Mr. Ray Burke, they rendered some splendid music. They gave a variety of music, rendering two special numbers, a duet and a quartette.

We are licensed Pawn  
Brokers and willingly loan  
money on articles of value.

We always have unre-  
deemed watches, dress  
suits, etc., for sale cheap.

## SECOND ANNUAL STUNT NIGHT

The stunt night has become a definite and distinct cog in the wheels of the Yoe Hi school. Turning back the pages of our memories we find recorded there the good will and irrepressible humor of the stunt night. Any one loving humor, tragedy, pathos and hilarious comedy, will be pleased with the program.

The "stunts" will be given on February 12, and in the form of a contest between the four classes of Yoe and as a proof of the validity of the above statements and to encourage the classes to do their utmost, a beautiful picture will be presented to the winning class. A committee of five important judges will be found in the audience to determine the winner of the entertainment.

The judges will present the picture to the president of the winning class immediately following the last act. As we are expecting an unusually large crowd the admittance will be placed at fifteen and twenty five cents.

## BASKET BALL TOURNAMENT

The County Basket Ball Tournament will be held Friday and Saturday of this week at the Lawless Green Athletic Field. So far only six schools have entered and are as follows: Rockdale, Buckholts, Jones Prairie, Yarrelton, Cameron and Gause. We are sorry to state that Sharpe has been ruled ineligible. The Sharp "Yellow Jackets" have had a good season and have been defeated only once or twice this year; for this reason the blow if ineligibility will be a severe one but Mr. Perkins of Cameron states that he will make an effort to get them in as he is going to write the Interscholastic board before the meet. He believes this can be accomplished if the support of all the county is given.

Of the strong teams that will compete are Rockdale, Yarrelton and Buckholts. We do not know how strong the Jones Prairie team is but it is said that they will put up a fight.

The Yoemen will be in the fight in full colors. Since the Sharp Yellow Jackets have been ruled ineligible by an error on their part to pay the entrance fee before Feb. 1 much interest has been added to the outcome of the tournament. Cameron, Buckholts, Rockdale and Yarrelton are supposed to be the strongest teams.

Come out and enjoy some good hard fought basket ball games as the winner of the tournament will be present-

ed with a silver loving cup in the form of an official size basket ball. Lynton Boggus of Waco will referee the games.

## A MIDNIGHT TRAGEDY

What wakened her she did not know but Nancy Prim, thirty-eight, old maidish but hopeful, set up in bed staring straight ahead in the half-light. She strained her ears but could catch no unaccustomed sound.

Yet there was a feeling, a premonition, if you wish, in the air. She seemed to sense a presence in the room. She remembered that she had left the windows open as it was not a very cold night. She looked at the one next the street but save for the curtain swaying in the night breeze there was no movement there.

She was afraid—horribly afraid. "I'm not alone; there's a man in the room," was her thought. "I'll investigate."

She switched on the light but nothing but the familiar furniture in the room.

Cautiously she peered under the bed.

A shriek, high and piercing, split the midnight silence and Nancy pitched forward in a dead faint.

Dissappointment had been to great for her.

There was no man there.

## JUNIORS DEFEAT THE SOPHS

The Juniors upset the dope bucket and defeated the Sophmores in a basket ball game by the overwhelming score.

Jeter, Slocumb and Baskin were the stars for the Juniors, while the whole Sophmore team fought gallantly in a losing game.

A more sacrificing, a more gallant, a harder game was never played before by any team as was the fight between the Juniors and Sophmores. The Sophmores were fighting to bring the gap between the score to a close while the Juniors were gallantly fighting to hold what they had.

Oh, Hornets, Where Is Thy Sting?

The Yoemen defeated the Caldwell Hornets in a decidedly close basket ball game here last Thursday.

Reichert, star center on the Yoemen squad was the high point man by scoring thirteen points. Fikes, Triggs, Hertenberger and Childress made up the rest of the team. All of them played a good game and it was a fight from the start to finish.

Mueller and McDonald, of the Hornets played a good game. In fact, Mueller was the star, scoring many of their points.

The passing of both teams was very good and for the first time the Yoemen co-operated and had fine team work. The score at the end of the half work. The final score was 22 to 21 in favor of the Yoemen.

## YOEMEN RECEIVE FOOTBALL SWEATERS

Much excitement was created last week when L. Van Perkins made the

startling announcement that the football sweaters had arrived. Every letter man wore a smile or a foolish grin that reached from ear to ear all last week. Each cheek was flushed with pride and many a sunken chest swelled in larger proportions. Mondrik had to have several new buttons sewed on his old sweater because he buried them off when his chest began the increase in larger proportions. Several others seemed to have the same trouble.

The sweaters are slip-overs, very classy and very sporty. They are of a dull gray with a maroon "Y" and maroon stripes on the sleeves below the elbow. The boys seem to like the sweaters better this year than those of last year because they are different. The following members of the squad received sweaters: Fred Childress, Captain 1925-26, Leo Mohler, Captain elect 1926-27, George William Triggs, Elmo Baggett, Clay Reichert, Louis Hertenberger, Ed Thompson, Ludvik Matula, Alvin Mondrik, Hooks Slocumb, Frank Cheeves, Arthur Adams, Wallace Moody, Monroe Smith, Carl Fikes, Bill Baskin,

Hugh McKinney, Hubert Ard and Joe Burnett.

I was struck by the beauty of her hand.

I tried to kiss her.

As I say,

I was struck by the beauty of her hand.

## Mist

Mist—white foam—a swirling sensation of billowing waves—where was he? He blundered something hard and cold—a blinding stinging sensation in his eyes—he gasped and choked—involuntarily he reached forward—the thing was within his grasp at last—a towel—and the soap was gone from his eyes.

Billie Wallace: "How long will I have to wait for a shave?"

Barber: "Oh, about three years."

Captain: "Where's the balance of your rifle?"

Private: "That's all they gave me sir."

"I hate that chap," said the lovable

girl as she rubbed cold cream on her lips.

Junior: "What are the kind of girls men forget?"

Senior: "Dead ones."

## Ode To Any Girl

Roses are red,  
Violets are blue  
If ice-water's hot,  
Then so are you.

Reggie wears an English cap,  
Mabel wears her pearls so rare,  
Mother wears the Hudson wrap,  
Father wears the cellar stairs.

I go to every football game  
And rave and yell and shout  
Although I must admit I don't  
Know what it's all about.

Montague to Mr. Sterling—"Why does a chicken cross a road?"  
Mr. Sterling—"Thought you'd catch me didn't you? Because she doesn't want to be one sided."

Clay to Carl Fikes—"Why do you

think you would be a good newspaper man?"

Carl—"You see, I can type on two fingers and can swear."

"How is it that the guard on your basket ball team has his face scratched?"

"He went to see a girl friend of mine the other night and she fouled him for holding."

# a Record Breaking Year ... and a still Greater Year to Come

With sales in excess of 250,000 cars, Dodge Brothers, Inc. have just completed the greatest year in their history.

Had it been possible to produce cars in sufficient numbers, their increase over 1924 would have been even more substantial.

This year the production problem has been mastered. A \$10,000,000 expansion program stands complete—and the enormous output of 1925 will be nearly doubled!

Production on this stupendous scale makes possible the astounding low prices announced January 7th.

It makes them possible even though the car is better today than ever before. These are but a few of the vital refinements—

Rich and attractive new colors.

Absolute smoothness of engine operation.

A new snap and elasticity of operation throughout.

Smart and stylish new body lines.

Complete vision from every angle of the sturdy all-steel body.

Dodge Brothers Motor Car has always been an exceptional product. With these refinements, at these new prices, it is without question the greatest value Dodge Brothers have ever offered.

## DR. W. R. NEWTON

Honors two fold have come to Dr. W. R. Newton, noted Cameron surgeon.

He has been notified of his election to the American College of Surgeons recently in convention at Houston and on Tuesday night of this week he was named a member of the Cameron school board to succeed the late Frank Mondrik.

His admission to the American College of Surgeons is an honor well deserved and highly appreciated by the doctor and his friends. His work as a surgeon has attracted wide attention and it was through his ef-

forts that the Cameron Hospital was established.

Admission to the American College of Surgeons is by strict test and examination and knowledge of surgery. Dr. Newton stood very high in the tests applied for membership.

As a member of the school board Dr. Newton will be of great service. He now has under consideration at his own expense a course in hygiene to be taught in the public schools and hopes to have the active support of the board and teachers. This course is set out by the American Medical Society.

## At Texas A. & M. College

College Station, Texas, Feb. 2.—The department dairy husbandry at the A. & M. College of Texas will have a new Test Barn in the near future, as the result of an emergency appropriation of \$10,000 which was approved by the Legislature for that purpose. The barn will be designed by Professor G. P. Grout, head of the dairy husbandry department, who has already completed rough plans for the structure. A test barn will fill a long felt want at the college. The old barn has become inadequate and as a result the testing work, so vital to constructive dairy breeding, was being handicapped. The new structure will be complete in every detail.

College Station, Texas, Feb. 2.—B. D. Marburger, professor of railway engineering at the A. & M. College of Texas, will assume the duties of superintendent of buildings and college utilities of the college on February 1, succeeding W. W. Kraft, resigned.

The position of superintendent of buildings and college utilities at the A. & M. College is a big job. The superintendent is responsible for the administration, upkeep and repair of all the college buildings, the power plant, laundry, sewage disposal plant, water system, heating system, lighting system, construction of new buildings, paving of new streets and sidewalks, repair of streets and walks and countless other jobs. He is responsible for the proper functioning and maintenance of buildings valued at more than three million dollars, and the annual expenditure of more than a half million dollars. Mr. Marburger graduated

from the civil engineering department of the college in 1905, and from then until 1920 was engaged in various lines of railway engineering. From 1920 he has been professor of railway engineering at the college.

College Station, Texas, Feb. 2.—Officials of the A. & M. College of Texas will take part on the program of the annual midwinter meeting of the Texas Swine Breeders' Association which will be held at the Raleigh Hotel, Waco, on February 11 and 12, along with other authorities on various branches of hog raising. At the banquet of the evening of February 11 gold medals will be awarded to 17 winners of the Ton Litter Contest, and special awards will also be distributed at this time.

Interesting addresses and discussions are on the program for the day sessions. Dr. R. P. Marsteller, professor of veterinary medicine and surgery at the A. & M. college of Texas, will discuss the prevention of hog losses from disease. Dr. N. F. Williams, state veterinarian, will also have a place on the program. Dr. W. I. Huffnal, city meat inspector of Waco, will tell of the advantage to farmers in having meat inspected. Professor D. W. Williams, head of the animal husbandry department at the A. & M. college will talk on balancing the feed of hogs. Fred Hale, who has charge of the swine work at the Texas Agricultural Experiment Station, A. & M. college, will tell of the value of cottonseed as hog feed. T. C. Westbrook, hog raiser of Waco, will discuss hog houses and hog equipment.

G. P. Dillard of Arlington will talk on the advertising value of the show ring. E. R. Eudaly, McLellan County agricultural agent, will discuss ton litters. Mr. Eudaly supervised the feeding of the championship ton litter for 1925 and 1926. Hardy Hay, championship winner of the contest for 1925, will tell how he fed his prize winning litter. There will be other addresses on similar subjects.

College Station, Texas, Feb. 2.—R. J. Buchanan of Kurton, Texas was the winner of the first annual freshman field crops judging contest held at the A. & M. College of Texas last week by the department of agronomy. Buchanan made a score of 1430 out of a possible 1600. He led over 40 contestants, his nearest competitor falling short of his record by 33 points. As reward for winning the contest he will be awarded a gold medal and will have the honor of being the first to have his name engraved on the W. S. Howell Field Crops Trophy, recently given to the agronomy department of the college by W. S. Howell of Bryan, on which the winners of the contest will be recorded for the next 50 years. The contest was conducted by professor E. O. Pollock of the department of agronomy.

The men making the five next highest scores will also be awarded medals. They are: W. F. Patton, Lockhart; J. M. Jackson, Abilene; E. B. Porter, Caldwell; J. G. Holmes, Troup and A. B. Coker, Center.

Four others won honorable mention in the contest. They are: H. P. Knolle, Corpus Christi; M. A. Anderson, Marshall; R. H. Sweetman, Ennis and R. L. Donald, Lewisville.

These students are all freshmen, studying agriculture. The contest is conducted for the purpose of stimulating an interest in the practical work of grain and hay judging, and to give the freshmen a better knowledge of the principle field crops of Texas.

### ALL OUT OF SORTS?

So Was This Cameron Woman Who Tells Her Experience.

All too often women accept their pain and aches as natural to their sex. They fail to realize that weak kidneys are often to blame for that backache, those headaches, dizzy spells and that tired, depressed feeling. Thousands have found new health and strength by helping the weakened kidneys with Doan's Pills—a stimulant diuretic. This Cameron case is one of many:

Mrs. H. D. Reynolds, 104 North Crockett Ave., says: "My kidneys were sluggish and I had a constant, bearing down pain through the small of my back. I also had a lameness and soreness in my back and I felt worn out and run down. I was troubled with dizzy spells when little dark spots darted before my eyes. After using Doan's Pills from the Jackson Pharmacy No. 2, kidney trouble left me."

Arrangements whereby the 6500 Chevrolet dealers throughout the country will be enabled to give complete Duco service to the motoring public are now being worked out in detail with E. I. du Pont de Nemours and Company, according to J. P. Little manager of the parts and service division of the Chevrolet Motor Company.

Heretofore Duco service has been available only through the distributors and refinishing stations of the du Pont organization. Under the new plan each Chevrolet dealer will be equipped to do all classes of Duco work, from minor 'touch up' operations to a complete refinishing job.

Complete Duco equipment has been installed in all of the 20 Chevrolet service schools in the United States for the purpose of demonstrating to every Chevrolet dealer the importance of properly equipping his shop to service Duco.

During the last few months every Chevrolet service promotion and used car representative, together with all Chevrolet parts managers and service school instructors, have been given complete training courses at the Chevrolet factories in the use of Duco equipment.

Chevrolet dealers may send men from their service departments to any Duco distributor for training in the application of Duco, and they have been assured also of the co-operation of more than 50 du Pont company field service men.

With installation of equipment dealers will be able to refinish their used cars for ready re-sale, to give quick service on Duco finish to patrons and to build up good will by their ability to maintain the appearance of customers' cars.

## To the Voters of Cameron:

On account of the duties of office and the collection of taxes at this time of the year, I have not been able to make as extensive canvas of the voters as I desired and in this way I wish to solicit the vote and support of those with whom it has not been my pleasure to talk.

I will make an effort to see all of the voters in every section of the city before the election. It is probable that I will not be able to see some of them on account of the limited time allowed me after the tax collecting period and this is addressed to those with whom I may not meet. I want them to know that their vote is solicited for me and will be greatly appreciated.

The duties of my office at this time are heavy, being the annual tax collecting period, and desiring always to give the best of service I have not been able to go out and make an extensive canvas in my behalf. To all those with whom I have not been able to talk, I address this appeal with an earnest request for their vote and support.

Yours very truly,

## INDUSTRIAL CO-OPERATION

One quite marked feature of the past year in business has been the fact that there have not been nearly so many strikes as usual. The anthracite coal strike has been a notable exception, but as a rule industry has been peaceful. The public is increasingly hostile to strikes, and it has a way of favoring the party that it feels is not responsible for them. If the workmen in an industry demand too much, so that wages can not be unduly advanced.

Second, there is a growing recognition in the labor movement, that the gains of the wage-earners from now on will be increase of production, so that the industries can naturally afford to pay higher wages, rather than by fighting their employers in the effort to obtain a larger share of the present product.

The usual result of increased production, is that wages go up. Employers find they can pay more wages, and they will pay more to meet their competitors.

If that happens all over the country, then the result is that the wage-earners can buy more goods, so that there is more work to be done than formerly.

Employers ought to do everything they can on their part to encourage a co-operative spirit. Conditions in many industries have been improved by forming some kind of shop council, where the employers meet regularly with representatives of their employees and discuss questions relating to the business. A great deal of labor unrest occurs because the workers are not familiar with the inside conditions of the business. Every concern and industry will have to study out its own methods of encouraging co-operation, which vary in different circumstances, but the gains of labor in the future will be made mostly along this line.

## "THE NEXT WAR"

Quite frequently writers and speakers discuss the question of the "next war", and speculate whether or not the United States will get drawn into it.

There seems to be just one possible peril of war at this time. There is no conceivable danger that any country is going to attack the United States. It would be folly for any country to land an army on our shores, or send a fleet to attack our naval vessels, or bombard our cities. Just one chance that can be considered a possible danger exists.

And that is that the powers of Europe may get to fighting again as they did in 1914. If that happens, there is a possibility that our country might get drawn in, as it did in 1917.

If so, it would happen because our ships were sunk, or because American travellers were attacked when in some foreign country or on the ocean. No amount of our protection of our own shores can ward off that possibility. We might line our coasts with fortresses like Gibraltar, but the danger that American ships might be sunk by submarines of some fighting power, would continue just the same.

The way for the United States to avoid this peril, is to promote the movement for world peace, so that these warring powers will never fight again. The less likely they are to fight, the less likely we are to be drawn in. Spending big sums for military preparation would not help much, if it did at all. It might increase the danger, because it would increase military spirit in foreign lands, and induce those nations to increase armament and take more aggressive attitudes that might tend to war.

The United States does not want to become entangled in the quarrels of Europe, but whenever it does anything that helps reduce the war spirit, it helps dispel those conditions that might draw us into fighting again.

## JOYS OF BACHELORHOOD

Out of 150 seniors of Columbia University who have answered a questionnaire as to their ideas and preferences, 57 say they favor bachelorhood. The dispatch does not state whether they believe in it as a permanent state for men. There are many young fellows who about that time are apt to take that point of view. They regard marriage as something very distant, in which they are not at present at all interested, and which may never seem desirable to them. The liberty of a bachelor seems wonderfully

attractive to such ones now. The ability to roam where and whither they will, the freedom from the burdens of family expense, seems a desirable aim. Also they may not like to become responsible to a wife for their conduct.

Many of them think it would be impossible for them to settle down with any one woman and be contented to see her every morning at the breakfast table, even if she did not always look so handsome as she does now. They enjoy the society of many girls, and want to be free to roam among these different ones, and cultivate one until they get tired of her and then go on to some new flame.

Considering that it does cost a good deal to support a wife and children, the philosophy may be somewhat practical for a young man for a number of years, particularly if his income is a very limited one.

But fortunately most of the young fellows get over that state of mind after a few years. They find that flitting around from one girl to the next loses its spice, and they would rather have someone to whom they could tie, and who would share their joys and sorrows. Marriage calls on a young man to give a great deal, but if he finds the right one it is worth all it costs, and then some.

## BENEFIT OF RETAIL TRADE

The value of property in a community depends to a large extent on the development of the retail trade. When a city's retail stores are poorly maintained, the city becomes less attractive as a place of residence. It is not so convenient for the people to shop in, and the unprogressive state of trade is manifested in the physical appearance of the business center, which tends to cast a blight over the place.

But if these stores are enterprising and attractive, it gives a boost to everything. People find it a convenient place for homes, and property adjacent to such a wide awake looking center will bring more money.

It makes a difference to every property owner in Cameron and its vicinity what kind of stores we have here. If we deprive those stores of trade that naturally belongs here, by going elsewhere for our purchases, we directly hurt our own interests, since we interfere with the full development of the place as a trading center.

## ONE FORM OF TOWN BOOSTING

One practical thing we can do to promote the development of Cameron is to talk up the advantages of its retail trade opportunities whenever we can.

When you make a purchase in these stores that pleases you, and you show it to your friends, be sure to remark that you got it right here in your home town, at such and such a store. If that could become the common practise among the people of Cameron it would be a powerful influence in keeping trade at home, and retaining the city's money for the development of its own institutions and business.

## BURDEN BEARERS

It is often remarked concerning a small number of people, that they do about all the public work of the community. While the rest devote themselves to their own affairs, these few can always be relied upon to take hold of public enterprises.

"I am not a horse" remarked one of them once. They occasionally complain about the tasks laid on them. But when some organization needs something done for the general good and comes around to these folks with a request that they take hold once more, they usually do so. Of course they are so used to doing these public things that they accomplish them with less fuss and fret than the ordinary person would. But they are the burden bearers for the whole community. We owe some of them a heavy debt here in Cameron.

It would be good policy to work in more newcomers, young people, and those who have not taken their share of public tasks, and not expect so much of this community labor to be borne by a few.

## SUPPERS AND FAIRS

It is amazing how much work will be done by some of the women on getting up fairs, suppers, food sales, etc. for churches and societies. Some of these jobs call for as much ability as would be expected of the caterer for a large hotel. The proposition may be worse than that, for the caterer can depend on paid and experienced help.

But the supper and fair directors have to depend usually on volunteer workers, who have to be rounded up by personal solicitation, and often can be enlisted only as a result of much persuasion. It is a big stunt to enlist and marshal all this force and make it operate in a way to please the critical modern community.

## BACK YOUR HOME TOWN

Too often we hear the old saying, "What is the matter with our town?" Did you ever stop to realize that the town is composed of just about the same sort of people that make up all the other towns of the country? If there is something wrong with the place you live in, couldn't it be possible that it goes back to the folks who make up the population?

Don't knock the town. Find out what is the matter with you and your neighbors. The chances are that if you are dissatisfied, the trouble can be found close at home.

What the people of this state and this nation need is more faith in their own community. To be sure, bad years have a tendency to make this faith weaken; but bear in mind that the individuals are really the ones who can make or break a city or a village.

Put your shoulder to the wheel for a great 1926. It is over one-twelfth gone—but the big eleven-twelfth still remain. It is up to you and me to make the most of it.

## The Power of Thought

By WARREN ORDWAY

(©, 1925, Western Newspaper Union.)

MR. HOLLOWAY was in an expansive mood, as he had just come from a good dinner and an ovation. Before an enthusiastic audience at the City club he had made his famous speech on "The Power of Thought."

He unbuttoned his vest and seated himself before his "workbench," as he liked to call his mahogany desk. "Now, if I can have an uninterrupted hour I can get some real work out of the way," he said.

Quiet thought was what accomplished things! From the day when as a young man, Holloway had stumbled across the formula for hardening the rubber in tires he had longed for time to think.

A workman entered and stood before Mr. Holloway's desk asking his advice. Mr. Holloway rose, cursing the interruption, and followed the workman into an adjoining room where the last finishing touches were being put on some alterations. The workman asked a question about the trim, which Mr. Holloway answered instantly.

He did not return at once to his office, but walked about the room, admiring the details. It was to be an absolutely quiet room.

"When this quiet room is finished I'll be able to get some real work done!" Mr. Holloway exclaimed, as he returned to his desk.

No sooner had he got squared away than the office manager, a thin, nervous fellow, in a black haircloth coat, bustled up. "Mr. Holloway, I'm at my wits' end," he fumed. "They're taking my storage space for factory materials, and I don't know where in the world I'm going to put the transfer correspondence." He spread a plan on his chief's desk.

Mr. Holloway scrutinized the plan, and like a flash, the solution came to him. He picked up the plan and boomed: "I'll let you know later. And in the meantime I'll give the matter my best thought."

The telephone rang and a City club secretary a thousand miles away asked if he would give his speech before their organization. "Yes, yes!" he shouted, and turned with a groan back to his plan.

A young man quietly entered the democratic office and stood before Mr. Holloway's desk. "I'm from Successful Men Magazine, and our readers want your ideas on the power of thought," Mr. Holloway gave his views, his voice trembling with the desire to throw the interrupting young man into the street.

A few days later the quiet room was finished. Every stick of furniture was in its place, and even the bronze reproduction of Rodin's "Thinker," reposed on the mantle. Mr. Holloway cleared the room of reporters and guests and announced he should first consider the problem of the office manager's transfer files.

Mr. Holloway sank back into one of the capacious padded leather chairs. This was the critical moment to which he had looked forward all through his business life. No more distractions; no more snap judgments, but from now on every decision firmly rooted in the deep thought that flourishes only in silence.

He spread the office manager's plan on the table, folded his hands across his unbuttoned vest and closed his eyes, the better to concentrate on the problem. He leaned his head against the leather chair back and relaxed every muscle.

The silence of the room hung over him like a blanket. He could hear the blood pounding in his head, while in his ears there rang a sharp, thin sound, like a distant locomotive whistle.

The ringing in his ears grew louder and became the whistle of a yacht—his yacht, bought with the extra profits made through the use of the silent room. He was standing on deck as the glorious boat plowed the blue waters of the Mediterranean sea. But what was the booming and that rattle of guns? A pirate ship in the distance! Its cannon was firing a shot a second, and its small arms were rattling an accompaniment. It was coming nearer, nearer. He shouted to the captain of his yacht. "Shoot! Why don't you shoot?"

Mr. Holloway awoke with a start. He snapped on the light and looked at his watch. After six! He had slept for over four hours!

He opened the great felt door and tiptoed across the dark, deserted office to where his hat was hanging. Glancing about, fearful lest he should meet one of his employees, he slunk shamefacedly to the elevator.

Next morning the office manager stood expectantly before Mr. Holloway's desk. "Did you decide about those cases of transfer correspondence?" he asked.

Mr. Holloway handed him a cigar and cleared his throat. "Don't be surprised," he warned with a nervous laugh.

After the two men had lighted their cigars Mr. Holloway ordered: "You can store the stuff in the new quiet room."

"Wha-wha-a-a?" stammered the office manager.

Mr. Holloway continued more confidently, now the first shock was over. "I've revised my slogan. From now on it's to be, 'Thought plus action.' You might have fifty copies struck off and distributed to all my department heads."

## INTENSE PAIN

Lady, Also Nervous and Weak,  
Relieved by Cardui.

"I was ill and had to stay in bed under treatment for about two weeks without any improvement in my condition, which was serious," says Mrs. J. T. Abercrombie, R. F. D. 7, Brookville, Ind.

"I had intense pain in my side. I was so nervous and weak and just out of heart."

"After taking one bottle of Cardui, I felt like getting up. My nerves seemed steadier and I didn't feel so weak. I kept up taking Cardui and was soon feeling like my old self."

"I am such a believer in Cardui until when I get nervous and weak I take it. I took it before my children were born. It strengthened me and helped my nerves."

"I took a cold and... my back felt so weak and I had such pulling pains. I took Cardui and didn't have any more trouble."

"I fell and broke my arm. The fall shook me up and made me very nervous. I told them Cardui would help that, and it did."

## BOBCATS ELECT

## TURN HAIR DARK WITH SAGE TEA

If Mixed with Sulphur It Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called "Wyeth's Sage and Sulphur Compound." It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

## RED PEPPER HEAT STOPS BACKACHE

When you are suffering so you can hardly get around, just try Red Pepper Rub, and you will have the quickest relief known. Nothing has such concentrated, penetrating heat as red peppers. Just as soon as you apply Red Pepper Rub you will feel the tingling heat. In three minutes it warms the sore spot through and through. Pain and soreness are gone.

Ask any druggist for a jar of Rowles Red Pepper Rub. Be sure to get the genuine, with the name Rowles on each package.

## Confederates Thank W. A. Morrison For Support of Camp

Cameron, Texas, January 29, 1926. At a call meeting of Camp Ben McCulloch, No. 29, United Confederate Veterans, Commander McLane stated briefly that the object of the meeting was to give some expression of our gratitude to Mr. W. A. Morrison, an attorney of this city who has for all these years been so loyal to Camp Ben McCulloch and its members.

Upon motion, Ed. F. English, Adjutant of the Camp, was appointed to draft some suitable resolution expressing the gratitude of this camp. The following resolution was read and adopted unanimously by the camp:

Resolved: That W. A. Morrison, a loyal son of the old South, has been the constant, faithful friend of this Camp for many years. When we were struggling for an existence and the camp was threatened with dissolution, Mr. Morrison, unsolicited, paid its dues for five years, to the National Camp. There has never been a National Reunion from that time until now that Mr. Morrison did not of his own free will contribute to the traveling expense of every veteran who cared to visit the reunion, and in some instances paid the entire amount out of his own private funds. Recently when the Stone Mountain Memorial Half Dollars were on sale, some of its members were sick and unable to procure these coins. Out of his own funds and of his own free will Mr. Morrison bought si of these coins and presented them to members of this camp. These generous acts and his loyalty to this camp puts upon us a debt of gratitude that we will never be able to pay. All the old men who belong to this organization are at this moment far out on the firing line in our feeble way our gratitude to him.

And be it further resolved that he be made honorary member of the camp until the end shall come as we believe he and others like him in after years treasure and keep alive the fires that have burned in the heart of Southern men since 1861.

Be it further resolved that a copy of these resolutions be tendered Mr. Morrison and a copy each to the Cameron papers.

Ed. F. English, Adjutant.

## ATTENTION MILAM COUNTY SCHOOLS

For the first time in history, a time limit has been set for schools wishing to join the Interscholastic League. The deadline is February 15. Do not let that date pass by without registering your school. The fee, which should be sent to the Interscholastic League, Austin is one dollar for rural schools having less than 100 pupils and two dollars for those having more than 100.

Remember the new features for this year—School exhibits and indoor baseball for boys and girls. Ask your county superintendent about the exhibits.

In spelling, all schools are represented by teams of two, who may be either boys or girls, or a mixed team.

No school is too small to enter. Let the people know that your school is on the map, and has a teacher that does something else besides hearing lessons. There should be 3000 boys,

## TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients. While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

## Drugs Excite the Kidneys, Drink Water

Take Salts at First Sign of Bladder Irritation or Backache

The American men and women must guard constantly against kidney trouble because we often eat too much rich food. Our blood is filled with acids which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, begin drinking lots of good soft water and get from your pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help flush and stimulate clogged kidneys, to neutralize the acids in the system so they no longer are a source of irritation, thus often relieving bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia-water drink and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time. By all means have your physician examine your kidneys at least twice a year.

## BANKERS HELP

Minnesota bankers played a constructive part in boosting the attendance at the Northwest Dairy Exposition held in connection with the State Fair in September. Five hundred members of the Minnesota Bankers Association received letters from the chairman of the agricultural committee, asking them to assist in forming delegations from their respective communities to attend the show.

The Atlanta, Ga., Clearing House gives the boll weevil no rest. In an effort to effect a concerted and statewide poison war on the boll weevil, this institution sent letters recently to all the bankers in the state asking that they assist in emphasizing the need for a wholesale war on the pest. According to a recent survey poisoning is being done on the larger farms, but not to any appreciable extent on the small farms. According to reports by the Department of Agriculture, the boll weevil infestation is heavier this year than ever before, and if allowed to go unchallenged the crop will be destroyed. Immediate and extensive action is urged.

Over two hundred bankers in Iowa recently made an arrangement to attend the Iowa State University for a two-day period and study farming and farm problems. The bankers will sit as students under the professors in the agricultural department, and will dig right down to the bottom of the many subjects which are of mutual concern to themselves and the farmers. This action on the part of the bankers of Iowa shows a real spirit of interest and a determined intention to understand.

Clark County (S. D.) Bankers, have appointed an agricultural committee of five to aid the county agent in putting across the latter's program of work, with especial emphasis on a ten-acre corn contest and eradication of tuberculosis in the county.

### JUDGES ARE NAMED FOR FARM CONTEST

Rockdale, Texas, Feb. 1.—Judge Jeff T. Kemp, county judge of Milam county, has received an appointment from the Austin Chamber of Commerce as one of the five judges for the Milam-Williamson district in the Austin organization's farm contest to "Bust the barns in 1926." Judge Kemp has accepted. Serving with him will be judge F. D. Love of Georgetown, H. F. McCullum, county farm agent there and George Banzhaf of Camron, farm agent for Milam county.

### ATTENTION MILAM COUNTY SCHOOLS

For the first time in history, a time limit has been set for schools wishing to join the Interscholastic League. The deadline is February 15. Do not let that date pass by without registering your school. The fee, which should be sent to the Interscholastic League, Austin is one dollar for rural schools having less than 100 pupils and two dollars for those having more than 100.

Remember the new features for this year—School exhibits and indoor baseball for boys and girls. Ask your county superintendent about the exhibits.

In spelling, all schools are represented by teams of two, who may be either boys or girls, or a mixed team.

No school is too small to enter. Let the people know that your school is on the map, and has a teacher that does something else besides hearing lessons. There should be 3000 boys, girls and parents in Rockdale for the meet March 19 and 20.

J. C. Wilkerson,

Director General.

Modern Youth—"Thanks, old top, I don't seem to be getting anywhere the way I'm going."

## LESS COTTON MORE MONEY

### HASTINGS DECLARES PRESENT FARM PRACTICE WILL BANK- RUPT FARMERS

Atlanta, Ga.—(Special).—"We have again seen the result of too much cotton acreage. Strange as it may seem the more cotton we make the less money we get for what we make," declared H. G. Hastings, leading agricultural authority and chairman of the Farm and Market Bureau of the Atlanta Chamber of Commerce.

"The only thing that saved the cotton growing farmer from outright disaster last year was the extreme heat and drought that held down the yield per acre on the more than forty million acres in cotton. There was sufficient cotton acreage planted to have made with favorable season somewhere near twenty million bales and a price of 10 cents per pound or less.

"One of the Cotton Growers' Associations recently announced that the 1925 cotton crop will sell for four hundred million dollars less than it cost to make it, making reasonable allowance for labor cost. What sort of folks are we anyhow to keep on growing at a loss? There is no profit to the farmer in planting all or nearly all cotton and buying all or nearly all the food and grain consumed by family and live stock.

"Our farm operations and our farm pocketbooks are never going to get right until we quit spreading cotton over the whole South only to draw our meat and meal and other food stuffs as well as grain, etc., from Chicago, Kansas City and Omaha at prices two to three times what cost would be if made on home acres.

"We have been trying to carry on a farm system based on a one cash crop, which has impoverished every people everywhere in the world that have tried it. It is steadily impoverishing our farmers here in the South. There is only one safe farm system. That is to produce on home acres so far as possible every pound of food, grain and forage needed for family and live stock.

"A good all-year-round home vegetable garden, plenty of corn and oats, forage and hay crops, to see you through without buying more, cows, hogs and chickens. All these cotton costs, afford the best of healthful living and leave the farmer owning his cotton instead of owing it at the end of the year."

### Health Seems O. K.

Customer at restaurant—"I would like some fish. Do you really think that trout are healthy?"

Saucy waiter—"Well, as far as I know, I really never heard any complain."

### HOW OLD ARE YOU?

"The ten years between twenty and thirty," said Roger W. Babson in his book, Business Fundamentals, "Should be charged to education. Correspondence courses and good books constitute a most profitable investment at this particular point in a man's career."

Many young men and women are ambitious but unable to leave home to enter a business school. Some of them spend the time vainly in wishing that they had money, or time, or both, so that they could prepare themselves for bigger things in life than they now enjoy. Others avail themselves of the opportunity offered by the Extension Department of Tyler Commercial College, Tyler, Texas. They invest their leisure time in an education that will mean dollars to them in the future.

There was never anyone who could not afford to take a business course. A business course through the Extension department always pays for itself and brings back to its recipient vastly more in dollars and cents than is ever spent upon it. You will pay for a business education whether you get it or not—by lost opportunities. No one is exempt and you should begin your course now.

By correspondence, the Tyler Commercial College teaches the private secretarial, general business, general civil service, bookkeeping, shorthand (typewriter furnished free—Byrne simplified and Gregg systems of shorthand taught), business administration and finance, and all other subjects which are taught in personal attendance.

Full information about the Extension Department is given in that large helpful book, "Achieving Success in Business." The book will show you how you can win a good position, good salary and success. Clip the coupon below and send for the free book.

Dallas, Texas. A vagrant was recently arrested here and fined \$50. for begging. He refused to pay the fine, although it was found he had \$7,000 in his pockets. The man preferred to work on the county farm, declaring he needed his money for his old age.

Yorkville, Ohio. Bernard Finney, 10, decided he could swallow a wrist watch and recover it as easily as had the magician at the show. He wasn't quite as clever, and a doctor had to cut it from his stomach. He will recover.

Chicago, Ill. Charles Helmar didn't want his relatives to fight over the \$4,000 he had saved during his lifetime. So he got his money in 10 dollar bills and set fire to them then killed himself.

Lawrence, Mass. Ralph Simmons, blind since birth, won the prize offered here for the closest guess as the number of cigarette boxes in a window. He guessed the correct number. Simmons felt one box and was told the dimensions of the pile. The next closest guess missed the correct amount by 40.

The college professor had asked that the students put a little more of the personal touch in their themes. So when he next graded papers, he found this at the end of one:

"Well, professor, how is the wife and the three kiddies coming along? Is the old Ford hitting on all twelve? And, before it slips my mind, could you lend me a ten spot until Saturday?"

## BUSINESS WOMEN MEET FOR PLEASING SESSION

### PROGRAM AND DANCE FEATUR- ES REGULAR MONTHLY SES- SION OF CLUB

The Business and Professional Women's Club enjoyed a social meeting last Tuesday evening at their regular monthly meeting place. The president, Miss Annie Stallworth, called the meeting to order and held a short business session at which time the following committees were appointed:

Membership Committee—Misses Carrie Marak, Lucille McLerran, Willyne Hyde, Mrs. Homer McLane and Mrs. Earl Westmoreland.

Finance Committee—Mrs. Maude Boles, Mrs. Lottie Bigbee, Mrs. B. P. Matocha, Misses Jane Caton and Viola Marek.

Educational Committee—Mrs. W. T. Hefley, chairman, Mrs. Katie Robbins, Mrs. Meta McCown, Mrs. Hubert Hefley and Miss Mary Lake Henderson.

Committee for next month's program: Mrs. Etta Ringgold, Misses Bess Marak, Bess Dunham, Lena Yoe, Nannie Maude Ford, Rose Rischar, Annie Woolley and Ruby Willie.

Miss Mary Lake Henderson was chairman of this month's program and had planned a most delightful program, assisted by a selection of helpers. Mrs. B. P. Matocha had charge of the decorations and by her artistic touch, had, with her helpers, transformed the hall into a most beautiful scene, featuring the approaching Valentine date. Red hearts in various sizes were artistically showered over the pretty cedar clumps that were placed at vantage points. Central posts were wound with Valentine color, red, and the tables placed for the punch bowl and sandwiches carried out the color scheme and motif. The stage front was draped and the lights were hooded with red crepe papers, making a most beautiful rosy effect over the entire hall, and fires made the room comfortable, adding to the hospitality.

The program was turned over to the chairman, Mary Lake Henderson who introduced those who had part, in a most delightful manner. A noted little Frenchman was introduced, (Herbert Freeman) who with his celebrated French players, rendered a delightful program, first giving the evolution of the dance and an exhibition of the up-to-date orchestra himself in pantomime, provoking much merriment. A little French girl in the person of Miss Dorothy Denison was next presented who gave a beautiful aesthetic dance, showing talent and beauty in her many figures. Miss Katherine Lovick, dressed as a little man, and Miss Aline Maddox, gave the Charleston dance in attractive manner and was much enjoyed by all present. Miss Sue Griffin Webb possesses the style and endurance that might only be expected of a professional. These young ladies delighted their audience with the charm of their exhibition and talent. The concluding number on the program featured the entire cast in a pretty catchy song and dance.

At the conclusion of the program the Grand March was led by the president, Miss Annie Stallworth, and Miss Jane Caton, Club sponsor for the Stone Mountain Memorial Drive, followed by the entire membership. At the close of the march each guest passed by the improvised Post Master and called for their mail. Miss Delphia Scott was Post Master and handed out the mail as each appeared. Upon opening the letters they were found to be comic valentines. The most peculiar thing about this was Uncle Sam's wisdom. The valentines were addressed to various places, but all passed through the Cameron

post office, keeping up the usual efficient service that the Cameron Post Office enjoys. Sells of all kinds were received, making an uproarious spectacle.

Pencils and a sheet of paper were handed each guest who were asked to write a valentine to their partner in the Grand March, which were dropped into the "letter box" at the post office and were later called for. Some original verses were composed and much fun was had over the receipt of these. The post office official was kept quite busy, and a deputy clerk was called in in person of Miss Harriett Henderson.

At the conclusion of the evening two kinds of sandwiches with delicious fruit punch were served with valentine heart candy mints. This was one of the most enjoyable meetings of the club, and many thanks are extended by the members to Miss Henderson and her able corps of assistants, and to Mrs. Matocha and her helpers for the decorations, and to Mrs. Joe Casey who presided at the piano and gave splendid music for the Grand March and program.

Visiting ladies were Miss Aetna Smith, Mrs. Jett of Dallas, Miss Harriett Henderson, Miss Dorothy Denison, Miss Sue Griffin Webb, Miss Aline Maddox, Miss Katherine Lovick, Miss Letha Howard, Miss Lucy Bauer and Mr. Herbert Freeman.

The Herald has received a clipping from Mrs. S. D. Hanna of Cameron taken from the Hagerman Messenger of New Mexico telling that her son H. A. Hanna will move back to Texas. The clipping follows:

Everybody in Hagerman will regret to learn that Henry Hanna is planning to leave the valley and go back to take his excellent family along with him. The Hannas have been the "salt of the earth" at Hagerman for many years, and their going will cause many heart aches among their host of friends throughout the valley.

We understand that Mr. Hanna will go to Dallas, where he will have a good business connection, and that he will rent out his farm here.

#### JOE McQUEEN

Joe McQueen, who lived alone near Sharpe, was found dead beside the highway near his home Tuesday morning. The physician pronounced his death due to natural causes. His condition indicated that he had probably been dead for several hours before he was found. Friends prepared his body for burial. His funeral was held from the Lilac Baptist church by Rev. Rice with interment in the Lilac Cemetery. Mr. McQueen is survived by four brothers who live in Sharpe, Caldwell, Belton and Amarillo and one sister, Mrs. M. Moody of Cameron.

## STRAIGHT TALKS WITH AUNT EMMY ON EASY MONEY

"An awfully interesting man came to see me today, Aunt Emmy. He had a list of stocks and bonds that look very favorable to me. Take this," said Helen, handing an alluring looking folder to Aunt Emmy. "This stock is pretty good. The man said it would be quoted at 20 on the exchange a month after it is put out. I can buy shares now at two dollars so I would make eighteen dollars for every two dollars I invest and all inside of four weeks." Helen paused for breath while Aunt Emmy looked at the folder.

"If I were to buy those White Leg horn chickens of yours," remarked Aunt Emmy, "would you promise me their eggs will sell for one dollar and a half a dozen a month from now?"

"Of course not, Aunt," laughed Helen. "The price of eggs depends entirely on the supply and demand in the market."

"Well, how about stocks? Why can this man promise you this stock will be selling for twenty dollars a month from now?"

"Well, I don't know exactly, but the listings on the stock exchange are different, aren't they?"

"The prices of stocks quoted on the stock exchange are influenced by supply and demand like the prices of eggs. No one can honestly guarantee the future price of any stock. A promoter who urges you to buy stock on any such guarantee is misinforming you. A stock salesman you could trust would never make such a statement. If you are going to listen to such talk you'd better put your money in the savings bank."

"But I wouldn't make so much on it!" objected Helen.

"Big profits mean big risks, and you cannot afford to take risks," said Aunt Emmy. "The house that gets out this booklet is unknown to you. Why don't you find out who you are dealing with?"

"How can I find out about the thousands of stock houses in the United States?"

"Well," said Aunt Emmy, "if you insist on considering making investments, you ought to at least take the trouble to go to your bank and find out about the people you are dealing with."

"I didn't know banks would bother with anything but actual banking," Helen said.

"They are glad to," Aunt Emmy said. "The more people that save and invest money wisely the better it is for the banks."—A. B. Aymes.

#### RESTRICTING LOANS ON UNECONOMIC FARMING

Bankers in many of the rural sections of the country are realizing as never before that they cannot afford to loan money for the conduct of farming enterprises where the odds are against that enterprise ever becoming a success. The risk is too great, and what is more it is doing the borrower an injury to encourage him in an unwarranted venture.

Some farmers may resent the idea of being questioned in regard to the use they expect to make of borrowed money. A false idea of their independence may lead them to feel that they can do as they please and follow any system of farming they desire; that it is nobody else's business whether that system is economic or not.

Experiences in certain sections during the past few years demonstrate the folly of such a position. The banker is loaning other people's money and he is duty bound to safeguard what has been entrusted to him. Further, the law holds him responsible. With this obligation resting on his shoulders he has a right to select his customers. If he is convinced that a one-crop system or any other particular type of farming is unsound and is likely to be uneconomic, he is doing an injustice to the borrower as well as the depositor to loan the farmer the money.

Best results will accrue when both the lender and the borrower recognize that they are entering into a partnership and if the advantages and the dangers are frankly and carefully discussed the possibilities of success are greatly enhanced.—Banker-Farmer.

#### A Few Good "Don'ts"

Don't buy securities that are handled by irresponsible persons or unknown firms.

Don't buy mortgage notes on distant property.

Don't buy stock in new enterprises.

Don't try to work the stock market. If the public were to win, professional operators would soon shut up shop and quit.

Don't buy stock in mines you know nothing about. Many mines are holes where fools dump their money.

Don't buy oil stock.

Don't buy stock in new invention schemes.

Don't buy real estate unless you have seen it. It may be a swamp.

Don't buy from one who says, "Invest now or it will be too late."

Don't buy from one who says, "The price will soon be raised."

Don't buy from one who offers you a discount for cash.

Don't buy anything on "tips."

Have nothing to do with the "bucket shop."

Don't speculate. A rich man can afford to, but you can't.

A splendid rule is, before you buy a security take it to a conservative and disinterested banker and ask him how much he will lend on it alone as security.—Banker-Farmer.
